

JOB POSTING NOTICE

Posting Date: 05/29/2026

POSITION: Data Engineer
Full-time job, 40 hours per week
Pay/Salary: \$174,533.00 year.

NUMBER OF OPENINGS: 1

LOCATION: ARISTOS TEK
12885 W SH 29, Suite 200
Liberty Hill, TX78642

JOB DUTIES: Designing, developing, and maintaining robust data pipelines to ensure seamless and reliable data flow across systems. Perform Core tasks and involve in data manipulation, transformation, and optimization using Python and SQL, with a strong emphasis on accuracy, consistency, and availability for analytics and reporting. Use AWS services, including S3 for scalable storage, Redshift for efficient data warehousing, Lambda for event-driven automation, StepFunctions for orchestrating complex workflows, and EMR with Spark for distributed processing of large-scale datasets. Use EventBridge to build event-driven architectures, enabling smooth communication across services and triggering automated data processes in near real time. Work under Supervision. Travel and/or relocation to unanticipated client sites throughout the USA is required.

EDUCATION Master's degree in Computer Science/Information Technology/IS/Engineering (any)/Data Science or closely related field
